## How ESORICS 2020 is planning to use your videos?

We plan to make links to your 1-min abstract videos public as part of the conference programme.

Our initial plan for your recordings of full presentations is to have them as a back-up solution in case we have problems with live presentations. In this case videos will be streamed for all conference participants via Zoom Webinar. We may also make your full presentations public after the conference but this has not been decided yet.
